Company Introduction

Hanil Nuclear is a leading company in radiation safety management industry. Hanil Nuclear provides the best quality service in various fields, such as radiation safety management of domestic and overseas nuclear power plants, personal dosimetry service, and test analysis of gamma and low level beta alpha.

Major Products and Services

Hanil Nuclear's radiation management service includes health physics, waste disposal and transport for nuclear power plants, and also for industries using a radiation generator. Our TEST & ANALYSIS CENTER laboratory is accredited by ILAC-KOLAS for gamma, and low level beta alpha analysis. Also, it provides Radon Measurement Service using an alpha-track detector which is widely used throughout Europe and North America.

Major Business Records, Partners and Markets

Hanil Nuclear is participating in the projects of KHNP, KORAD, KAERI, POSCO E&C, and LG Display with their excellence in radiation management and radioactive waste management.

Qualification, Certificates, Patents and Awards

- Patent
 - Radioactivity concentration control system
 - Monitoring methods of adsorption performance of activated carbon and replacement cycle indicating device
 - Radiation dosimeter automatic annealing system and annealing method
 - Radiation shielding block and its manufacturing method
 - Radioactive waste drum transport container
- Certificate of Approval
 - ISO 9001: 2015 / KS Q ISO 9001:2015
 - ISO 45001:2018 / KS Q ISO 45001:2018
